Tips to Clip!

Gift-wrapping timesavers!

1 Do one thing at a time

Set up an assembly line! First wrap everything (and label!), then do all the ribbons, then all the tags.

2 Tape smart!

Fast pro trick: Don't waste time hiding tape: Just use matte-finish to keep it unobtrusive.

3 Buy better ribbon

Make a simple knot and leave streamers. Quality ribbon needs no fancy bow tying—and you'll use less!

4 Tape gift tags

It's faster than threading strings through little holes in tie-ons!

5 Just bow out!

If it's bigger than a bread box, no need to wrap it. Add a stick-on bow and be done!
