

SINISTER CERAMICS

Gaudy old ceramics take on an entirely cool new look when coated in a dark sheen for Halloween. Try grouping them together as a table centerpiece for elegant eeriness, hang an owl on the door, or position black cats nearby to serve as a mysterious welcoming committee. Or, simply set the ominous creatures around the table to set a sinister mood.

You Will Need:

From Savers/Value Village

- Assorted selection of knick-knack animals (we kept our focus on owls, cats and birds)

Other supplies

- Black matte spray paint
- Red, flat-back, glue-on jewels for eyes (available at craft stores)
- Craft glue

Directions:

- 1) Clean the ceramic pieces with a wet cloth to rid them of dust and dirt, and allow to dry.
- 2) Spray several light coats of black matte spray paint to cover the entire animal. Allow for drying time between the coats.
- 3) Once completely dry, use craft glue to affix red jewels onto the eyes.
